WHY Mira?

MORE Than Dental Treatment

A Coordinated Approach to Care

Choosing dental treatment abroad involves more than selecting a procedure.

At **Mira Clinic**, dental expertise, digital technologies, in-house laboratory capabilities, and international patient services come together to support each stage of your treatment journey.

✦ Comprehensive Dental Care

A multidisciplinary dental team providing a wide range of treatments within one facility.

✦ Integrated Digital Dentistry

Advanced imaging, digital scanning, and treatment planning technologies support detailed clinical evaluation and personalized treatment planning.

✦ In-House Dental Laboratory

A dedicated laboratory enables close collaboration between dentists and dental technicians throughout the restoration design and production process.

✦ International Patient Support

Dedicated coordinators and multilingual assistance help patients navigate their treatment and travel arrangements.

✦ Continued Aftercare

Post-treatment guidance and follow-up support remain available after patients return home.

Our dental treatments

Comprehensive Dental Care, Under One Roof

Mira Clinic offers a wide range of dental treatments, from restoring missing teeth to enhancing smile aesthetics and maintaining oral health.

Each treatment plan is developed according to the patient's clinical needs, dental condition, and individual goals.

Dental Implants

Solutions for replacing missing teeth, from single-tooth implants to full-mouth restorations.

Orthodontics

Treatments designed to align teeth, improve bite function, and support long-term dental health.

Hollywood Smile Makeovers

Personalized smile designs developed with attention to facial features, natural proportions, and individual aesthetic preferences.

Teeth Whitening

Professional treatments to brighten natural teeth and reduce discoloration.

Dental Veneers & Crowns

Custom-made ceramic restorations designed to enhance dental aesthetics and restore damaged teeth.

General & Restorative Dentistry

Comprehensive dental care focused on preserving oral health, treating dental concerns, and restoring tooth function.

Our dental experts

Meet the People Behind Your Care

Behind every treatment plan is a dental team bringing together different areas of clinical expertise.

Your journey with Mira

From Your First Consultation to Aftercare

Your dental journey begins before you arrive in Istanbul.

Mira Clinic coordinates each stage of the process, helping international patients understand their treatment plans and prepare for their visit.

Online Consultation

Share your dental concerns, treatment expectations, and available dental photos or X-rays for an initial assessment by our team.

Personalized Treatment Planning

Our dental team reviews your case and outlines the proposed treatments and anticipated appointment schedule.

Arrival in Istanbul

Your patient coordinator assists with arrival arrangements, transfers, and appointments to help you prepare for your visit.

Dental Treatment

Following an in-person clinical examination, your treatment plan is confirmed and carried out by the dental team.

Aftercare & Follow-Up

Receive personalized aftercare instructions, a dedicated care kit, and continued follow-up support after returning home.

Initial treatment proposals may be updated following the in-person clinical examination

International patient services

Personal Support,

Wherever Your Journey

Begins

Traveling abroad for dental care involves more than medical appointments. **Mira Clinic** provides dedicated assistance to help international patients manage the practical details of their visit to Istanbul.

INTERNATIONAL

PATIENT

SERVICES

Multilingual Assistance & Interpreters

Language support to help patients communicate with their dental team and understand their treatment journey.

Dedicated Patient Coordinators

Personalized support throughout your visit, from answering your questions to coordinating appointments and treatment related arrangements.

Airport & Clinic Transfers

Convenient transfers between the airport, hotel, and clinic, tailored to your treatment schedule.

Hotel & Accommodation Assistance

Support with accommodation options and hotel reservations suited to each patient's stay and preferences.

Flight Booking Assistance

Assistance with flight reservations and travel-related arrangements according to the services available.

Personalized Appointment Scheduling

Dental appointments coordinated around individual treatment requirements and travel schedules.

Global connections & flexible options

Supporting Your Journey Beyond Dental Care

International dental treatment involves travel arrangements, appointment planning, and financial considerations.

Mira Clinic's international connections and available services are designed to support different aspects of this process.

✦ IATA — International Air Transport Association Commercial Partnership

Mira Clinic is a commercial partner of the International Air Transport Association **(IATA)**, reflecting its engagement with international travel services.
Patients planning their visit can contact **Mira's** coordination team to learn about available flight-booking assistance and travel arrangements.

✦FlexPay — Patient Financing

Flexible Payment Options for Eligible U.S. Residents

Through FlexPay, eligible U.S. residents may access financing options that allow dental treatment costs to be spread across monthly payments. Financing is subject to approval and applicable terms.

Here to Support Your Journey

Our international patient team can help clarify the available travel assistance, appointment arrangements, and applicable payment options before your trip.

Advanced dental technology

Digital Dentistry, Connected from Scan to Design.

At **Mira Clinic**, advanced diagnostic technologies and integrated digital workflows support detailed treatment planning and clinical procedures. By connecting digital records, clinical evaluation, and restoration design, the dental team can coordinate key stages of the treatment process.

Advanced Diagnostic & Clinical Technologies

3D CBCT Imaging & Panoramic X-rays

Detailed dental and jaw imaging to support diagnosis, treatment evaluation, and surgical planning.

Intraoral Scanning & Dental Photogrammetry

Digital records of dental structures, including precise implant position recording in selected full-arch cases.

Dental Microscopes & Magnification

Enhanced visibility for detailed procedures, including complex endodontic treatments.

Dental Lasers & Digital Treatment Units

Modern instruments and treatment systems supporting selected clinical procedures.

The Mira Digital Workflow

SCAN

Capture detailed digital records using intraoral and extraoral scanning technologies.

PLAN

Use clinical information and digital records to develop an individualized treatment plan.

DESIGN

Create digital 3D models to plan dental restorations with attention to fit, proportions, and aesthetics.

CREATE

Develop digital models and physical mock-ups to preview and refine proposed restorations before final production.

WE DO CARE

Our in-house dental laboratory

Where Digital Design Meets Dental Craftsmanship.

At **Mira Clinic,** dental restoration design and production are supported by an in-house dental laboratory.

Bringing dental professionals and laboratory technicians together under one roof supports communication and coordination throughout the restoration process.

✦ CAD/CAM Technology

Computer-aided design and manufacturing systems support the development of customized dental restorations.

✦ Exocad & 3Shape Design Software

Advanced digital tools used to design crowns, veneers, bridges,and other dental restorations.

✦ 3D Printing Technology

High-precision printing of dental models, prototypes, and mock-ups for treatment planning and restoration design.

✦ Wet & Dry 5-Axis Milling Machines

Advanced milling technologies used in the production of dental restorations.

✦ E.max & Advanced Ceramic Materials

Dental ceramics selected according to clinical needs, aesthetic considerations, and restoration requirements.

integrated design. close collaboration. in-house production.

Designed around your comfort

Comfort Beyond the Treatment Room

At **Mira Clinic,** the patient experience extends beyond dental care. Our facilities are designed to provide welcoming spaces for patients and accompanying family members throughout their visit.

Reception & Waiting Lounges

Modern, welcoming areas where patients and guests can relax before and between appointments.

Mira Café

A dedicated space to enjoy refreshments and take a break during your visit.

Children's Area

A designated play area for children accompanying patients.

Entertainment & Leisure

PlayStation and billiards provide opportunities for patients and their companions to unwind between appointments.

Because Every Part of Your Visit **Matters**
